Case Marine & Industrial
John Case, Owner
1100 NW 51st St
Seattle, WA 98107
Attention: Casey Clapper

Dear Mr. Case and Mr. Clapper:

Congratulations! For your efforts to reduce hazardous waste and prevent pollution, your business has qualified for EnviroStars certification. A service of the Local Hazardous Waste Management Program in King County, EnviroStars recognizes businesses by awarding them a 2-to 5-Star rating. **Case Marine & Industrial has been awarded 3-Stars!**

Eighty percent of Puget Sound area residents surveyed say that they are interested in supporting environmentally sound businesses like yours. EnviroStars can help you attract new customers, secure repeat customers and boost employee retention by promoting your company's responsible practices. Use your EnviroStars **decal, logo, and certificate** of recognition to show the public that you are doing your part to protect the environment. In addition, your business will be featured in a **radio sponsorship** on National Public Radio station KUOW 94.9 FM, in the next **Green Business Directory** publication, and on our **website** at www.envirostars.org.

You may upgrade your EnviroStars rating at any time. Businesses earning 4-Stars and above may be featured in **print ads** and **press releases** distributed to local newspapers, considered for **environmental awards**, and highlighted in **special promotions**.

To receive a higher star rating, you need to complete your goal(s) of switching away from lacquer thinner and notifying vendors that you're interested in alternatives to hazardous products; update the appropriate sections of the EnviroStars worksheet and send it to us, or we will check in on your progress and offer suggestions in a renewal visit next year.

If you would like assistance or have any questions about EnviroStars, call your on-site consultant Trevor Fernandes at 206-263-3066 or me at 206-263-3063. **A certificate will be signed by the County Executive and sent to you separately when available.** Again, congratulations and keep up the good work!

Sincerely,

Laurel Tomchick, EnviroStars Program Manager
Local Hazardous Waste Management Program
King County Department of Natural Resources & Parks
